

KLOVE serves me personally by providing positive christian music to my children. We listen to KLOVE all day while in the car and at our home as well. If online, we listen also. I beleive the effect on my local community as a whole would be detrimental if KLOVE were to be displaced by an LPFM broadcaster providing other programming. I know that many of my friends listen to KLOVE as well and we do not want our children to listen to any other radio station. In todays times, it is important to set a positive christian example and thru KLOVE's songs this can be achieved. I believe this KLOVE radio station is very beneficial to my San Antonio area. They are many teen groups who listen to this station and are encouraged by it as well. also i hear of the many teens as well as adults who made life changing decisions after hearing a certain christian song, etc . some of those changes included not killing theirselves. KLOVE is a positive encouragement to all who listen and should therefore be allowed to stay on the air.
